

**TP 176
NEW MODEL WITH EVEN MORE
PRACTICAL ADVANTAGES.**

TP 176

**FASTER.
STRONGER.
MORE POWERFUL.**

**DANISH DESIGN
AT ITS BEST:**

TOUGH, ELEGANT AND EFFICIENT.

TP 176 builds on all the success of TP 175, but with even more strength and durability. The TP 176 comes in 3 variants, powered by either electricity, petrol or diesel - and is the optimal choice for those who want high efficiency and even longer lifetime.

With the height-adjustable TP Vario Spout, you choose where the chips land - and you're guaranteed easy storage in garages and the like.

The TP 176 is equipped with the newly developed Pilot+ with Auto-reverse. A function with up to 3 reverses when the tree cannot be pulled in immediately.

The chipper is also equipped with TP Easy Control on both sides of the funnel. TP Easy Control is made of a steel construction that ensures a long service life.

750 kg

MORE CHIPS. LESS FUEL. LONGER LIFESPAN.

One of the new features that makes the TP 176 so unique is the high in-feed speed in combination with the new rotor.

The rotor consists of 2 long knives with a knife opening of 20 mm. The rotor runs at 1250 revolutions, giving us the fastest and strongest chipping performance on the market.

The result is higher efficiency, less energy consumption and fewer working hours per m³ of wood chips produced.

Therefore, the TP 176 is not only more efficient, but also more economical to operate.

**ELECTRICITY, PETROL OR DIESEL.
WEIGHT LESS THAN 750 KG.
THE STRONGEST FEED SYSTEM
ON THE MARKET.**

EMISSION CONTROL INFORMATION
THIS ENGINE MEETS 2018 Tier 4 EMISSION REGULATIONS FOR U.S. EPA AND CALIFORNIA NONROAD CI ENGINES.
